## **Technical details**

Germany Ingo Maurer Maurer, Ingo 1980 IP20 Leuchtmittel/Bulb 110 - 240 Volt metal, paper 200 cm E27 on the lead 100 Watt 75 cm H 76 cm

## Description

The Ingo Maurer Lampampe is an elegant and variable table lamp. The lamp body consists of Japanese paper. By screwing the screw ring at the lamp stand, the base out of paper will be slightly compressed and crumpled. Thus the classical shape of the table lamp is broken and transformed into a new contemporary form. As the look of the paper base is different every time, every version of this Ingo Maurer light is unique. Due to the crumpled paper a warm and comfortable lighting is created inviting to relax.
