Luminous flux in Im 900

Dimensions H 25 cm | Ø 21 cm

Description

The Ingo Maurer Johnny B Butterfly is an advancement of the Johnny B Good lamp designed in 2002. The anti-glare ring typical of the Johnny B series is decorated with butterflies. This ring places itself around the vitreous bulb and the handmade insects are tightly connected to the ring made of teflon. Different cable lengths are offered. By changing the cable loop, the suspension of the lamp can be adjusted individually. The light source is an LED retrofit.
