Description

The Oluce Lu-Lu 211 table lamp is a design by Stefano Casciani from the year 1996. It consists of two high-quality Murano glasses. These two glasses are also the special feature of the Lu-Lu 211: a double switch on the lamp allows dimming in the upper part of the lamp as well as switching on and off in the lower part. In this way, both parts can be switched separately. The lamp base is made of brushed metal. Oluce also offers from this series a floor lamp, which can be optimally combined with the table light. Both Lu-Lu lamps have a high light output.
