

Foscarini

Le Soleil Sospensione Halogen

Technical details

Country of Manufacture	 Italy
Manufacturer	Foscarini
Designer	Vicente Garcia Jimenez
Year of design	2009
protection	IP20
Scope of delivery	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
Diameter in cm	62
material	metal, polycarbonate
height adjustment	height determinable
dimming	dimmable on site
canopy dimensions	16 cm
system performance	3 x E27 70 Watt + 1 x GU10 PAR 16 75 Watt (max.)
Dimensions	H 43 cm Ø 62 cm

Description

The Foscarini Le Soleil Halogen is a pendant lamp designed by Vicente Garcia Jimenez. Its diffuser consists of polycarbonate and it is held by three ropes. This diffuser is in white. The light has three E27 illuminants plus one GU10 light source.

The cable length is by default 320 cm, on request also a lamp with a longer cable is offered. The Le Soleil is made of polycarbonate with an opaque finish. It is a material that screens the light perfectly to create particularly warm and pure reflected illumination. The volume is rendered more dynamic by the irregular edges of the bands of which the shade is made. These details recall the softness of the light and mean that it appears different depending on one's point of view. The lamp is also available with an integrated LED.
