

Luceplan

Hope Suspension 61

Technical details

Country of Manufacture	 Italy
Manufacturer	Luceplan
Designer	Paolo Rizzatto
Designer 2	Francisco Gomez Paz
Year of design	2009
protection	IP20
Scope of delivery	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
Diameter in cm	72
material	polycarbonate, steel
surface	transparent
cable length	270 cm
height adjustment	height determinable
dimming	on site dimmable with a leading edge dimmer
socket/light fixture	E27
Power (max. Watt)	250 Watt
Luminous flux in lm	2,135
Color temperature in Kelvin	2,800 warm white
light distribution	indirectly
Dimensions	H 49 cm Ø 72 cm

Description

The Luceplan Hope Suspension 61 is the smallest pendant lamp from this comprehensive series of lamps. It has a diameter of 61 cm and a height of 49 cm. Like the other lights in this series, it consists of a three-dimensional steel structure with transparent arms attached. On the arms, thin Fresnel lenses are again attached, which break the light like glass through prism-treated films. This creates numerous, impressive reflections on the walls.

The Hope Suspension 61 was created by the designers Francisco Gomez Paz and Paolo Rizzatto in the year 2009, following the inspiration of the Hope Diamond, one of the most expensive and famous diamonds in the world. The collection has already won several design prizes such as the Red Dot Design Award 2010 and the Compasso d'Oro ADI Award 2011. The cable with a length of 270 cm can be shortened if necessary. The light can be dimmed on site.
