### Description

The Anglepoise Original 1227 Mini Desk Lamp is a desk lamp with constant tension spring technology. By using this tension spring technology, both the lamp arms and the lamp shade of the table lamp can be individually adjusted so that the light can be precisely aligned. The design of the desk lamp is based on the original Anglepoise Original 1227 Desk Lamp, which was one of the first table lamps with springs. Thanks to the proven tension spring technology, which was specially developed for the British manufacturer, the lamp remains stable in its adjusted position.

The desk lamp has a steel lamp shade, a cast iron lamp base with steel coating and aluminum lamp arms. The lamp shade is glossy lacquered. The lamp is available in jet black, linen white and dove grey. The table lamp can be operated with an on/off switch on the textile feed line. Compact fluorescent lamps or LED retrofit lamps are suitable as illuminants.
