Description

The Anglepoise Type 75 Margaret Howell is a new interpretation of the table lamp Type 75 Desk Lamp. Like this, it also has flexible lamp arms that can be readjusted again and again thanks to tension spring technology. Thanks to this technology, the arms also retain any selected position. The lamp shade can be swivelled and rotated. Sir Kenneth Grange created the Type 75 Desk Lamp in 2004 and clothing designer Margaret Howell added new colours to the collection. The table lamp resulting from this cooperation is available in the surfaces yellow ochre, sienna and saxon blue. Lamp arms, lamp shade and lamp base each have the selected surface. The on/off switch is located on the supply line. The table lamp can be operated with compact fluorescent lamps or LED retrofit lamps.
