Description

The Stilnovo Quad P7 is a plastic structure, consisting of seven square shapes in die-cast aluminum. Designed by Pio and Tito Toso, this geometric pendant lamp with LED sources emits indirect light that softly illuminates the ceiling and spreads into the surrounding space. The linear branched design makes it suitable for installation with underlying tops, such as rectangular tables or reception counters. This pendant lamp can be dimmed on site. With an optionally offered Casambi module it can also be dimmed via Smartphone App.
