### Description

The Marset Santorini A Fixed Stem is a wall lamp that is permanently installed. It is also suitable as an outdoor lamp as it is dustproof to IP65 and protected against water jets from any angle. Its diffuser is made of glass, the two shades of polycarbonate. These shades are available in mustard yellow, white or grey finishes and can be attached in different ways. Depending on the arrangement of the shades, the light emitted upwards is reflected differently. The grey lacquered metal wall bracket has a diameter of 12 cm. The Santorini A Fixed Stem wall lamp can be operated with LED retrofit or compact fluorescent lamps.
