### Description

The Oluce The Globe 827 OR is a pendant lamp with a gold satin anodised bronze surface. It consists of a transparent, mouth-blown glass ball with a diameter of 20 cm and a height of 18 cm. The lamp socket inside the glass emits its light downwards, but also into the room. Halogen lamps or LED retrofit lamps are suitable as light sources. The original concept of The Globe lamps was designed by Joe Colombo in 1964 and has been further developed by Oluce since 2015.
