

# Arturo\_Alvarez

## Aimei

### Technical details

<b>Country of Manufacture</b>	 Spain
<b>Manufacturer</b>	Arturo_Alvarez
<b>Designer</b>	Arturo Alvarez
<b>Year of design</b>	2019
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>voltage suitability</b>	230 - 240 Volt
<b>material</b>	glass, steel, wood
<b>cable color</b>	transparent
<b>height adjustment</b>	height determinable
<b>dimming</b>	on site dimmable with a trailing edge dimmer
<b>Wattage</b>	8 W
<b>LED</b>	inclusive
<b>Luminous flux in lm</b>	960
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>canopy dimensions</b>	12 cm
<b>total height</b>	200 cm
<b>Dimensions</b>	H 80 cm   B 80 cm   L 80 cm

### Description

The Arturo Alvarez Aimei pendant lamp is made of ash wood. Ash wood is a particularly flexible and versatile material. By means of handcrafted processes, curved and durable surfaces can be produced using this resistant and high-quality material. A spherical glass diffuser reduces glare and spreads the emitted light homogeneously through the spaces between the wooden rods into the room. The lamp is a total of 80 cm high. It has a length and a width of 80 cm each. The pendant lamp is attached to a transparent cable. The nickel-plated steel canopy has a diameter of 12 cm. Including the suspension, the lamp has a total height of 200 cm, the cable can be shortened if required. The light source integrated in the Aimei is an LED with a colour temperature of 2,700 Kelvin extra warm white, which can be dimmed on site with a trailing edge phase dimmer. The pendant lamp is also available on request with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
