Reflex2 Ceiling S200-black

surface_of_reflector

- white
- white matt
- gold
- silver

Technical details

Country of Germany Manufacture

Manufacturer Serien Lighting Designer Jean Marc da Costa

Year of design 2020 protection IP20 LFD Scope of delivery

voltage suitability 110 - 240 Volt

material acrylic glass, aluminum, glass

surface

dimmable with a trailing edge dimmer and dimming

with a leading edge dimmer

33 W Wattage LED inclusive **Colour Rendering** >90

Index

Luminous flux in Im 3,910

Color temperature in Dim to warm Kelvin

bulb exchange on site itself

Dimensions H 20 cm | B 20 cm | L 20 cm

Description

The Serien Lighting Reflex2 Ceiling S200 has a black frame structure made of aluminum. From the frame structure, the light is emitted onto a reflector with a prismatic surface. Thus, the light is emitted absolutely glare-free and indirectly. The reflector is available in matt white, gold, silver or white. Depending on the colour, a different lighting effect is achieved.

The Reflex2 Ceiling S200 ceiling light has the dim to warm function. When dimmed, this imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. When dimmed down, the light not only becomes darker, but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. On request, the lamp is also available with 2,700 Kelvin extra warm white, 3,000 Kelvin warm white, DALI, 1-10 Volt or dimmable with Casambi module.
