

# Serien Lighting

## Jones black

### Schirmdurchmesser

- 34 cm
- 45 cm

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Serien Lighting
<b>Designer</b>	Uwe Fischer
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>voltage suitability</b>	110 - 240 Volt
<b>material</b>	aluminum, Borosilicate glass, glass, Textile
<b>height adjustment</b>	height adjustable
<b>dimming</b>	Push button dimmer at the light rod
<b>Wattage</b>	38 W
<b>LED</b>	inclusive
<b>Colour Rendering Index</b>	>97
<b>Luminous flux in lm</b>	3,500
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>shade color</b>	white
<b>Shade height</b>	34 cm
<b>lamp stand dimensions</b>	33 cm
<b>bulb exchange</b>	on site itself

### Description

This Serien Lighting Jones floor lamp can be continuously adjusted in height and thus used for different lighting. The lamp can be adjusted in height via two push button dimmers on the lamp rod. When the lamp rod is pushed upwards, the lamp can be used as a ceiling floodlight, as the light is mainly emitted to the ceiling. In the middle range of the height adjustment, the light is emitted diffusely into the room as well as directly downwards and upwards. When pushed down, most of the light is emitted downwards, ideal for a reading lamp.

The Jones floor lamp comes with an orange glass insert that can be easily inserted into the lamp shade if required. This illuminates the white lamp shade in colour. The lamp can be switched and dimmed via a third push button dimmer on the lamp rod. The lamp is available with two shade diameters: 34 cm and 45 cm. For both lamps, the shade is 34 cm high. The lamp with the smaller shade diameter is height-adjustable from 155 cm to 171 cm, the larger version from 152 cm to 172 cm. A replaceable LED is integrated as a light source if required.
