Description

In the glass of the Serien Lighting Drum Suspension Rope M Long there is a conical reflector made of opal acrylic glass. During installation, the total height of the pendant lamp can be set between 15 cm and 195 cm. The Drum Suspension Rope M Long has a glass with a diameter of 22 cm. The height of the glass is 26 cm. The pendant lamp is available in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with Dim to warm function. The lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is often perceived as pleasant. When dimmed down, the light not only becomes darker, but also changes its colour temperature from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white.
