Description

The pendant lamp Tibeta 03 of the Spanish manufacturer Bover has a lampshade made of shiny metallic aluminium. The lamp shade of this pendant has a diameter of 22 cm, is 11 cm high and has regular twisted cross grooves. Inside the lamp shade there is a diffuser made of methacrylate, which directs the light downwards without glare. This LED pendant lamp is available in the surfaces antique brass, brilliant copper or with a black chrome alloy. The canopy of the Bover Tibeta 03 pendant light has a diameter of 11 cm. This pendant lamp has in the surface antique brass as well as in the surface chrome black a black cable, in the surface copper brilliant a copper coloured cable. The cable of this LED pendant lamp can be shortened if required. Hanged in combination to several lights, the pendant light Bover Tibeta 03 can create a practical lighting in the living-dining area or in the restaurant. This on-site dimmable (TRIAC) light changes the colour temperature from 2900-3200 Kelvin when dimmed.
