

# Knapstein

## ELVI-W

### Oberfläche

- chrome
- nickel

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Knapstein
<b>Designer</b>	Knapstein
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>voltage suitability</b>	230 - 240 Volt
<b>Depth in cm</b>	12
<b>material</b>	brass
<b>Colour Rendering Index</b>	>90
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>light head dimensions</b>	9 cm, height 3 cm
<b>bulb exchange</b>	at the manufacturer / at the factory
<b>system performance</b>	2 x 4.5 Watt
<b>Total luminous flux in lm</b>	926
<b>Dimensions</b>	H 7 cm   B 9 cm

### Description

The Knapstein ELVI-W wall lamp emits its light downwards through a lens. It is always glare-free and creates a wide light cone on the wall behind the lamp. The light is emitted upwards through a cover with slits in narrow light cones. A white satinised glass filter is available as an accessory, which can be integrated on the lamp head. With the glass filter, diffuse light is emitted upwards instead. The ELVI-W is available in matt nickel and chrome. The wall light has a height of 6.8 cm and a width of 9.3 cm. Its depth is 11.5 cm. Two LEDs, each with a colour temperature of 2,700 Kelvin extra warm white, are integrated as light sources.
