#### Description

The SLV Rusty Up/Down WL square is an outdoor wall lamp made of FeCSI steel in a natural rust tone. LEDs with an output of 14 watts are integrated as lamps. This square outdoor wall lamp is 14.5 cm wide, 16.5 cm deep and 18 cm high. The light is emitted downwards and upwards, as well as conically at the top and bottom of the wall, so that light effects are created on the wall in both directions. The colour temperature of the SLV Rusty Up/Down WL square can be changed from 3000 Kelvin warm white to 4000 Kelvin white with a switch (CCT Switch) integrated in the lamp, if required. The uplight of the lamp has a luminous flux of 259/260 lumens, the downlight has a luminous flux of 285/288 lumens. With IP65 protection, the Rusty Up/Down WL square by SLV is ideal as an outdoor lamp, as it is dustproof and protected against water jets from any angle.
