Description

The Grupa Arigato Table is a table lamp with a swivelling joint arm. The two parts of the arm can be positioned differently via two joints. Its lamp shade can be rotated by 360 degrees and swivelled by 125 degrees. The lamp base has a joint that allows the lamp to rotate 330 degrees. This way, the light of the table lamp can always be redirected. Thanks to a diffuser at the bottom of the lamp shade, the light is emitted downwards without glare.

The lamp rod and jointed arm are made of steel, the lamp shade made of aluminum. The Arigato table lamp is available with a black or white matt powder-coated finish. The lamp is offered in other finishes on request. An on/off switch is integrated on the supply line. The lamp can be operated with E27 halogen lamps or LED retrofits. From the series, the Arigato Table Palace is also offered with a swivelling lamp arm.
