<b>protection</b>	IP20
<b>Scope of delivery</b>	Leuchtmittel/ Bulb
<b>voltage suitability</b>	110 - 240 Volt
<b>material</b>	Lunopal, Textile, wood
<b>dimming</b>	dimmable on site
<b>socket/light fixture</b>	E27
<b>shade color</b>	white

### Description

The strict conical shape of the lamp is enlivened by the charming overlapping of the two halves of the shade and the rounded wooden elements. The white shade of the Domus Iris ceiling lamp is made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant, washable and does not yellow. The lamp with a diameter of 34 cm is 16 cm high, the lamp with a diameter of 45 cm is 18 cm high. The Domus Iris wall lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
