Knapstein

MARISA-60

Oberfläche

- nickel
- black
- bronze

Technical details

Country of Manufacture	🇩🇪 Germany
Manufacturer	Knapstein
Designer	Knapstein
Year of design	2021
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
material	brass
height adjustment	height adjustable
dimming	gesture control
Wattage	73 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	9,116
Color temperature in Kelvin	2.200 - 3,000 adjustable
bulb exchange	at the manufacturer / at the factory
total height	70 - 170 cm
Dimensions	H 2.8 cm	B 21 cm	L 61 cm

Description

The Knapstein MARISA-60 is a rectangular pendant lamp with a length of 60.6 cm and a width of 20.6 cm. The profile is 2.8 cm high and 1.8 cm wide. By pulling or lifting the lamp, the total height of the lamp can be adjusted continuously between 70 cm and 170 cm. The lamp can also be suspended from a sloping ceiling. This pendant lamp emits its light upwards and downwards at the same time. The uplight and the downlight can be switched separately by gesture control and dimmed continuously. Using gesture control, it is also possible to adjust the light colour for the uplight and downlight to a warmer tone (between the colour temperature of 3,000 Kelvin warm white and 2,200 Kelvin extra warm white). All dimming and light colour settings are saved via memory function and automatically reset the next time the light is switched on.

A wiping hand movement in the sensor area switches the lamp on or off. To dim the light, the hand is held in the sensor area for a longer period of time. The lamp flickers briefly after the dimming process is completed. Afterwards, the desired light colour can be set by again holding the hand in the sensor area for a longer period of time. The MARISA-60 is available with a matt nickel, black or bronze effect surface. On request, the MARISA is also available in other lengths or surfaces. Its ceiling canopy has no visible screws as it is held in place by magnets.

Not only individual in the adjustment of light colour and brightness, but also in sizes. This lamp is also offered with a length of 100.6 cm as MARISA-100, including the proven height adjustment. Due to its rectangular design, the lamp series provides e.g. a dining table with a much greater illumination than its actual design would suggest. With a pendulum height of approx. 60 cm above the edge of a dining table with 100 cm, the lamp illuminates more than its actual design.
