

Knapstein

LISA-D

Oberfläche

- nickel
- black
- bronze

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Designer	Knapstein
Year of design	2022
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Diameter in cm	60
material	metal
height adjustment	height determinable
dimming	with remote control
Wattage	72 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	7,850
Color temperature in Kelvin	,200 - 3,000 adjustable
canopy dimensions	35 cm
bulb exchange	at the manufacturer / at the factory
total height	20 - 60 cm
Dimensions	H 2.8 cm Ø 60 cm

Description

The Knapstein LISA-D is a ring-shaped pendant lamp with a diameter of 60 cm and is suspended from three thin wire ropes. The light is emitted by the lamp simultaneously upwards and downwards. The uplight and the downlight can be switched separately and dimmed continuously with a remote control included. The remote control can also be used to adjust the light colour for the uplight and downlight to a warmer tone (between the colour temperature of 3,000 Kelvin warm white and 2,200 Kelvin extra warm white). Via the remote control, there is also the option of parallel dimming of the uplight and the downlight. All dimming and light colour settings are saved via memory function and automatically set again the next time the light is switched on.

The remote control, which can be recharged via a USB-C port, has a wall bracket with which it can be magnetically attached to the wall.

The total height of the LISA-D can be set once between 20 cm and 60 cm. For final height setting, all stop sleeves on the underside of the ceiling canopy are pressed in, after which the wire ropes can be pushed or pulled to the desired height. The LISA-D is available in matt nickel, black and bronze effect finishes.
