

Catellani & Smith

Ettorino Clamp

Oberfläche

- hlack
- multicoloured
- white

Technical details

Country of Manufacture Italy

Catellani & Smith Manufacturer Designer Enzo Catellani

Year of design 2022 protection IP20 Scope of delivery LED

voltage suitability 110 - 240 Volt

Projection in cm

material aluminum, brass, Iron

cord dimmer

dimming 10 W Wattage

LED inclusive **Colour Rendering Index** 80 Luminous flux in Im 1.440

Color temperature in Kelvin 2,700 extra warm white

bulb exchange on site itself **Dimensions** H 28 - 90 cm

Description

The Catellani & Smith Ettorino Clamp can be clamped to tables, shelves etc. and can also be attached to a new location if required. The Ettorino clamp lamp can be directed flexibly. The lamp arm can be tilted and swivelled. The lamp head can also be rotated and tilted. In addition, the clamp light can be rotated 350 degrees around its own axis via a joint on the lamp base. Depending on how the lamp is aligned, the lamp head has a height of between 28 cm and 90 cm. A patented process ensures that the lamp remains stable in any selected position.

The Ettorino Clamp is suitable for tables with a thickness of up to 5.5 cm. The clamp lamp is available in the surfaces white, black and multicoloured. A small, red, human figure adorns the arm of the lamp as a design element. The clamp lamp is regulated via a dimmer on the supply line. The lamp is operated with an integrated LED with a colour temperature of 2,700 Kelvin extra warm white.
