<b>Luminous flux in lm</b>	280
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>lamp stand dimensions</b>	7 x 7 cm
<b>bulb exchange</b>	on site itself
<b>system performance</b>	2 x 1 Watt
<b>LED number</b>	2
<b>Dimensions</b>	H 42 cm

### Description

The Catellani & Smith Post Kriisi 10 Malagolina features a lamp shade made of fiberglass, combined with a light rod and a lamp base in metal. This table lamp was created by the designer Enzo Catellani in 2012. The light includes two exchangeable LEDs with each power of 1 Watt. The LEDs are offered in extra warm white (2,700 Kelvin). A dimmer is included on the cord. Catellani & Smith offers this table lamp in the following colours for the shade outside: natural, white, silver or gold. The fiberglass shade is either left in its natural colour or hand-painted in the matching colour.
