

Knapstein

LINDA-192

Oberfläche

- nickel
- bronze
- black

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Year of design	2023
material	brass
height adjustment	height adjustable
Wattage	92 W
LED #	inclusive
Colour Rendering Index	>90
Luminous flux in lm	10870
Color temperature in Kelvin	2.200-3.000
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
dimming	gesture control
bulb exchange	at the manufacturer / at the factory
total height	73 - 180 cm
Dimensions	L 192 cm

Description

The Knapstein LINDA-192 pendant lamp has a length of 192 cm. By pulling or lifting the lamp itself, the total height of the lamp can be adjusted between 73 cm and 180 cm. The lamp can also be suspended at an angle. The pendant lamp emits its light simultaneously upwards and downwards. The uplight and downlight can be switched and dimmed separately by gesture control. The light colour can also be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved via the memory function and are automatically reset when the light is next switched on.

The sensor area for gesture control is located centrally on the lamp. The lamp is switched on or off by a wiping movement of the hand in the sensor area. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area again for a longer time. The LINDA-192 is available in different surfaces. There are no visible screws in the ceiling canopy, because of a magnetic holder.
