

Knapstein

ZERA-2 with acrylic cover

Oberfläche

- nickel
- black
- bronze

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Year of design	2024
material	Acryl, Metall
height adjustment	height adjustable
dimming	gesture control
Wattage	4x12 W
LED #	inclusive
Colour Rendering Index	>90
Luminous flux in lm	5096
Color temperature in Kelvin	2.200-3.000
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
canopy	70 x 5,5 x 5,5 cm
total height	70 - 170 cm
Dimensions	L 70 cm

Description

The Knapstein ZERA-2 is characterised by its exceptional functionality. The LED pendant lamp emits its light upwards and downwards at the same time. Using gesture control (Knapstein Dynamic White), the uplight and downlight of the two luminaire bodies can be switched and dimmed separately. The light colour can be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The Knapstein ZERA-2 has a synchronisation function (master/follower light control) for coordinating the light intensity and light colour of all light sources on one side of the luminaire. The Knapstein ZERA-2 is switched on or off with a swiping hand movement in the sensor area of the left or right lamp body. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area for a longer period again. The two lamp bodies of the lamp have a white acrylic cover with a visible edge at the side. The height of the light can be continuously adjusted from approx. 70 cm to 170 cm using the built-in lift height adjustment. Thanks to two lifts per luminaire body, the individual luminaire bodies can be precisely positioned in height - even on sloping ceilings. The ceiling canopy of the Knapstein ZERA-2 LED pendant lamp has a magnetic holder, so no external screw connections are visible. This pendant lamp is available in different surfaces.
