Description

The Holtkötter Nova FLEX LED floor lamp emits light upwards as a ceiling floodlight. This 185 cm high luminaire also has a flexible reading arm with a swivelling luminaire head. The light from the ceiling floodlight and the lamp head on the reading arm can be continuously switched and dimmed separately using two touch dimmers on the lamp rod. The integrated memory function saves the last light setting when the luminaire is switched off and automatically restores it when it is switched on. The luminaire is available in anodised brass, black, platinum and matt aluminium. The flexible lamp arm is available in sand, red, blue, grey and black.
