

Ingo Maurer

Light Au Lait

Technical details

País de la Fabricación	 Alemania
fabricante	Ingo Maurer
diseñador	Maurer, Ingo & Team und Dumas, Fabien
año	2004
protección	IP20
Volumen de suministro	Leuchtmittel/Bulb
entrada de tensión	110 - 240 Volt
Proyección en cm	15
material	acero Inoxidable, silicona
longitud del cable	200 cm
base/portalámparas	G9
conmutabilidad	interruptor de cordón
Alimentación (máx. Watt)	60 Watt
Dimensions	H 32 cm B 14 cm

Descripción

The Ingo Maurer Light Au Lait is a light thought up to the last detail. Although shapes colours materials and names seem to be trivial a wonderful composition of light design is achieved through the innovative combination. The choice of saucer cup and spoon for the lamp body justifies the name reference to café au lait. If you pull the spoon fixed at a tow cable placed vertically under the lamp the extraordinary light cone of this Ingo Maurer lights appears. However the Light Au Lait is not only a compositional delight but also because of the swivel head combining saucer and cup. This joint makes the luminaire rotatable at up to 180° and adjustable at 30°. The Ingo Maurer Light Au Lait may be installed both with an on-wall and an in-wall box. Please note that an on-wall box is inclusive with this lamp!
