

Foscarini

Le Soleil Sospensione Halogen

Technical details

País de la Fabricación	 Italia
fabricante	Foscarini
diseñador	Vicente García Jimenez
año	2009
protección	IP20
Volumen de suministro	Leuchtmittel/Bulb
entrada de tensión	110 - 240 Volt
Diámetro en cm	62
material	metal, policarbonato
ajuste de altura	altura determinada
Atenuación	Regulable en el sitio
Dimensiones del dosel	16 cm
El rendimiento del sistema	3 x E27 70 Watt + 1 x GU10 PAR 16 75 Watt (max.)
Dimensions	H 43 cm Ø 62 cm

Descripción

The Foscarini Le Soleil Halogen is a pendant lamp designed by Vicente Garcia Jimenez. Its diffuser consists of polycarbonate and it is held by three ropes. This diffuser is in white. The light has three E27 illuminants plus one GU10 light source.

The cable length is by default 320 cm, on request also a lamp with a longer cable is offered. The Le Soleil is made of polycarbonate with an opaque finish. It is a material that screens the light perfectly to create particularly warm and pure reflected illumination. The volume is rendered more dynamic by the irregular edges of the bands of which the shade is made. These details recall the softness of the light and mean that it appears different depending on one's point of view. The lamp is also available with an integrated LED.
