Descripción

The Luceplan Costanza Suspension Dimmer has a lamp shade with a diameter of 70 cm and a height of 49 cm. This is a larger version of the original Costanza. It was designed by Paolo Rizzatto in 2006 with a white shade.

On the light head is placed a rod-shaped sensor dimmer, which dims the lamp with a light touch in different brightness levels. The height of the pendant lamp can be once adjusted from 100 cm to 475 cm.
