Foscarini

Twice as Twiggy Terra

Farbe

- blanco
- rojo
- crudo gris-amarillento
- negro

Technical details

País de la Fabricación	🇮🇹 Italia
fabricante	Foscarini
diseñador	Marc Sadler
año	2016
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
Proyección en cm	390
material	aluminio, La fibra de vidrio, metal, policarbonato, polimetilmetacrilato
Color del cable	transparente
longitud del cable	260 cm
ajuste de altura	altura determinada
Atenuación	cable de dimmer
Potencia en vatios	81 W
LED	incluyendo
Indice de reproduccion cromatica	>90
Temperatura de color en grados Kelvin	3.000 blanco cálido
Diamètre de l'ombre	80 cm
Altura de pantalla	44 cm
Dimensiones del soporte de la lámpara	100 cm
Flujo total luminoso en lm	8.615
Dimensions	H 320 - 340 cm

Descripción

The Foscarini Twice as Twiggy Terra is a further development of the famous Twiggy Terra by Marc Sadler. Like this, the floor lamp of 2016 is also equipped with an arc-shaped light arm. As the name suggests, the projection of the Twice as Twiggy floor lamp is nearly twice as large as the original Twiggy Terra.

This makes the Twice as Twiggy particularly suitable for large rooms. At the same time, it still does not miss the lightness in the design of its predecessor. Thanks to a steel cable inside, the diameter of the arc is still very thin. In addition, the wide and at the same time lightweight shade can be adjusted with counterweights in the height.

The two LED chips of the arc light emits the light both directly downwards and indirectly upwards towards the ceiling. The LEDs have been developed by Foscarini itself in such a way that the lightnuance of a halogen light source is maintained with respect to the colour temperature. The floor lamp has an on / off switch on the supply line, which also serves as a dimmer for infinitely variable regulation.

The following colours are offered: white, black, crimsonred and greige grey-beige.
