

Oluce

The Globe 228 OR

Technical details

País de la Fabricación	 Italia
fabricante	Oluce
diseñador	Joe Colombo
año	2018
protección	IP20
Volumen de suministro	Leuchtmittel/Bulb
entrada de tensión	110 - 240 Volt
material	Bronce, metal, vidrio
superficie	dorado
Color del cable	negro
Atenuación	Regulable en el sitio
base/portálámparas	E27
conmutabilidad	en la delantera
Alimentación (máx. Watt)	60 Watt
Dimensiones del soporte de la lámpara	longitud 30, anchura 30 cm
distribución de la luz	directamente
Dimensions	H 33 cm

Descripción

The Oluce The Globe 228 OR table lamp is based on a concept by Joe Colombo from 1964, which was reinterpreted by Oluce in 2015. The light of this lamp is emitted by a cylindrical metal socket that is integrated into a transparent glass. The light source is directed downwards at an angle of 45 degrees, so that the light is emitted downwards and partially reflected from there into the room. The glass can be rotated sideways in the base of the lamp. The glass is mouth-blown and has a spherical shape with a diameter of 30 cm. The base of the lamp has a length and a width of 30 cm. The lamp has a surface of gold satin anodised bronze. The Globe 228 OR can be operated with E27 halogen lamps or LED retrofit lamps. The lamp is also available with a satin nickel surface.
