Descripción

The Marset Soho 112 LED is a pendant lamp with a diameter of 112.6 cm and a height of 60.7 cm. The lamp shade is made of polyethylene by centrifugal casting. It emits its light directly downwards. A white-opal diffuser in the lower part of the shade ensures even distribution and glare control of the emitted light. The Soho 112 LED is available in white, black and stone grey. An LED module with a colour temperature of 2,700 Kelvin extra warm white is integrated; the pendant lamp is also available with 3,000 Kelvin warm white on request. The cables with a maximum length of 300 cm can be shortened if required.
