

Vistosi

Bolle SP 35

Oberfläche

- transparente
- blanco

Version

- E27
- LED

Technical details

País de la Fabricación	 Italia
fabricante	Vistosi
diseñador	Barbara Maggiolo
año	2003
protección	IP20
Volumen de suministro	Leuchtmittel/Bulb
entrada de tensión	110 - 240 Volt
Diámetro en cm	35
material	crista vidriol, metal
longitud del cable	200 cm
ajuste de altura	altura determinada
Atenuación	Regulable en el sitio
Dimensions	H 34 cm Ø 35 cm

Descripción

The Vistosi Bolle SP 35 pendant lamp has a lamp shade made of crystal glass. The characteristic texture of this series is created by the Balaton technique: air bubbles are enclosed in the glass during processing. The resulting effect multiplies the reflections on the surface of the sphere. This lamp emits the light into the room and also directly downwards.

The Bolle SP 35 is available in crystal transparent and white. The metal parts are satin nickel-plated. This pendant lamp is available in two versions: as an E27 or as an LED lamp. The E27 lamp can also be operated with LED retrofits. The LED lamp has an integrated LED with a colour temperature of 2,700 Kelvin warm white and can be dimmed on site with a trailing edge phase dimmer. On request, the LED lamp is also available with a colour temperature of 3,000 Kelvin warm white and 0-10 Volt dimmable. The cables can be shortened if necessary. With the three ceiling hooks supplied, the pendant lamp can also be mounted independently of the power outlet.
