### Descripción

This Brokis Knot Small Sfera pendant lamp has an opal, mouth-blown glass. A metal reflector is integrated top of the glass, which is handcrafted during production. It is available in the colours black matt, chrome black, brass, brushed stainless steel and copper. The canopy is always delivered in the same colour as the reflector. The lamp has a height and a diameter of 30 cm each. The special feature of the Knot Lights from Brokis is the cable running through the lamp, which is tied in a knot at the bottom of each lamp. The light is also available with a transparent, smoke grey or smoke brown glass. Additionally there is also offered the larger Knot Sfera from this series. On request there is a not dimmable version available.

If you like to order this article, please specify the length / distance between the ceiling and the lower edge of the lamp under the item Order Review in the field Order Comment.

Each light will be packaged and shipped with a quality paper envelope containing the installation manual, white cotton gloves for gentle handling of the light, a certificate of authenticity, and the BROKIS Small Catalogue. Upon opening the box, you'll find a QR code that will take you to a brief video on how to safely unpack your new light and get started as well as detailed information on how to properly clean BROKIS lights.
