### Descripción

The Serien Lighting Draft Ceiling M ceiling lamp is available in the glass colours clear, brown and blue. Inside the glass is a conical reflector made of opal acrylic glass. The light is softly diffused all around by the reflector and emitted directly downwards. The soft light of this lamp is evenly distributed. The Draft Ceiling M is 29 cm high. Its diameter is 34 cm.

The integrated LED of the ceiling light has a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with 3,000 Kelvin warm white or with dim to warm function. The version with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. In addition to this lamp, the Draft Ceiling S ceiling lamp with a height of 24 cm and a diameter of 26 cm is also available.
