Descripción

The Serien Lighting Draft Suspension Rope S has a mouth-blown, transparent glass with a conical reflector made of opal acrylic glass. The pendant lamp is available in the glass colours clear, brown and blue. The reflector directs the emitted light directly downwards and diffuses it softly and evenly all around.

The glass of the Draft Suspension Rope S is 21 cm high and has a diameter of 26 cm. The pendant lamp has a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with 3,000 Kelvin warm white or Dim to warm function. The version with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is often perceived as pleasant. As a result, the colour temperature of this version changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed.
