Descripción

The Serien Lighting SML2 Wall 900 Silver has a height of 3 cm. Its depth is 9 cm. Different lamp covers are available for the lamp: With the lamp covers, the light can either be scattered upwards and downwards (satinée / satinée) or scattered in one direction and, depending on how the lamp is fixed, dimmed downwards or upwards (satinée / raster).

The SML2 Wall 900 is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with **Tunable White technology**. With Tunable White technology, the light can be controlled via Bluetooth from warm incandescent to cool white (with colour temperature control from 2,700 Kelvin extra warm white to 5,000 Kelvin cool white). An LED is integrated as the light source, which can be replaced on site if necessary.
