### Descripción

The Bomma Soap Large is made of mouth-blown crystal glass. The characteristic features of soap bubbles such as iridescent colour gradients, transparency and irregular shapes clearly inspired the collection. Especially when illuminated, these lamps glitter and shimmer because of their metal coating. Each glass is mouth-blown without a mould and is therefore unique, so that shape, size and colour intensity can vary.

The Soap Large is available in gold, silver, blue, matt and clear finishes. The cable consists of a grey textile braiding. As standard, the lamp is supplied with a cable length of 250 cm, the cable can be shortened if required. Special cable lengths are also available on request. The Soap Large has an E27 socket for LED retrofit bulbs. In addition to this pendant lamp, the smaller Soap Small and Mini are also available.
