Descripción

The LDM Santo Gala is a pendant lamp with a length of 120 cm. Two LEDs, each with a colour temperature of 2,850 Kelvin warm white, are integrated next to each other in the lamp and emit most of their light downwards. A sensor dimmer is located in the centre of the lamp, with which the light can be switched and dimmed without touching it. The lamp is switched on or off with a wiping hand movement in the sensor area. To dim the light, the hand is held in the sensor area for a longer time.

The Santo Gala pendant lamp is made of aluminum and is available in the versions polished aluminum, silver metallic, bronze as well as black and white matt. All surfaces except polished aluminum are powder-coated. The lamp is suspended from the ceiling with two steel cables and has a total height of 115 cm. On request, the lamp is also available with special cable lengths.
