## Santo Terra

### Version

- aluminio
- bronce
- negro
- blanco

### Technical details

<b>País de la Fabricación</b>	 Alemania
<b>fabricante</b>	LDM
<b>protección</b>	IP20
<b>Volumen de suministro</b>	LED
<b>entrada de tensión</b>	230 - 240 Volt
<b>material</b>	aluminio, cromo
<b>angulo del rayo</b>	124 grados
<b>Atenuación</b>	Sensor dimmer en la cabeza
<b>Potencia en vatios</b>	14,5 W
<b>LED</b>	incluyendo
<b>Indice de reproduccion cromatica</b>	>95
<b>El flujo luminoso en lm</b>	600
<b>Temperatura de color en grados Kelvin</b>	2.850 blanco cálido
<b>Dimensiones del soporte de la lámpara</b>	25 cm
<b>cabeza del alumbrado masa</b>	longitud 55 cm
<b>reemplazo de la bombilla:</b>	en el fabricante / en la fabrica
<b>Dimensions</b>	H 160 cm

### Descripción

The LDM Santo Terra is an adjustable floor lamp. Its lamp head has a length of 55 cm and can be swivelled by 180 degrees at the joint as well as rotated by 350 degrees. With a practical handle on the lamp head, the light can be directed exactly where it is needed. The lamp head is also individually height-adjustable along the lamp rod.

The Santo Terra is available in aluminum polished and powder-coated in bronze, white matt or black matt. The lamp head has the corresponding surface. The lamp rod is always supplied in polished chrome. The external spiral cable is a special design element that flexibly adapts to any desired height of the lamp head.

The Santo Terra by LDM is operated with an integrated LED that has a colour temperature of 2,850 Kelvin warm white. With a sensor dimmer on top of the lamp head, the floor lamp can be switched and dimmed without touching it. The lamp is switched on or off with a wiping hand movement over the sensor. To dim the light, the hand is held directly over the sensor for a longer period of time.
