Descripción

The successful combination of high-quality materials and uncomplicated design allows the Domus LARAFelt Ceiling Lamp L to be used in project, office and private areas. The high-intensity LED ceiling lamp, whose ring-shaped lampshade seems to float on the ceiling due to a thumb-width distance, also provides ceiling illumination thanks to its open construction. The diffuser, which is deliberately placed high, makes the material used inside directly perceptible and ensures an optimal diffusion of the light.

The LARAFelt Ceiling Lamp L grey by the German manufacturer Domus has a diameter of 55 cm and is 14.5 cm high. This dimmable lamp is equipped with an LED with a power of 25 watts and a luminous flux of 3100 lumens. The light of the integrated LED is characterised by a very good colour rendering with a high colour rendering index of $Ra > 92$. The ring-shaped lampshade of the Domus LARAFelt L is covered with grey wool felt. This lamp is available in the inner shade colours wool white, orange and curry. The LARAFelt series also includes ceiling lamps with a lamp shade in red felt (shade inside colour wool white). On request, the lamp is also offered with a lamp shade in indigo coloured felt (shade inside colour cinnamon).
