<b>año</b>	2009
<b>protección</b>	IP20
<b>Volumen de suministro</b>	Leuchtmittel/ Bulb
<b>entrada de tensión</b>	110 - 240 Volt
<b>Proyección en cm</b>	18
<b>material</b>	Lunopal, madera, Textil
<b>Atenuación</b>	Regulable en el sitio
<b>base/porta lámparas</b>	E27
<b>Alimentación (máx. Watt)</b>	75 Watt
<b>Color de la pantalla</b>	blanco
<b>Dimensions</b>	H 30 cm   B 16 cm

### Descripción

A single strip of Lunopal, intertwined twice, creates an airy, light structure. Open at the bottom and top, the lamp casts a charming play of light and shadow on the wall. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The real wood wall bracket of the Domus Julii is optionally available in beech, maron-oil or white lacquer. This lamp is 30 cm high, 16 cm wide and has a projection of 18 cm. This wall lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
