Descripción

The Domus Kioto 9 has a length and width of 52 cm. It is 8 cm high and can also be used as a wall lamp. This lamp is suitable for surface mounting as well as for recessed mounting. The wooden frame around the lamp shade is made of beech. The lamp shade is made of white transparent Lunopal, which the German manufacturer Domus has developed for its lamp shades. It does not fade and is reminiscent of fine Japanese paper. The Kioto 9 is operated with a powerful, dimmable LED and has a colour temperature of 3,000 Kelvin warm white. A covering frame made of beech is offered as an accessory, which can cover the metal bracket of the ceiling and wall lamp if required.
