Description

The Foscarini Lightweight is a very exclusive chandelier designed by Tom Dixon. Eight low-voltage illuminants are fixed to a geometrically arranged network of anodised metal rods. Through the hand blown satined glasses surrounding the illuminants of the Lightweight a pleasantly diffuse lighting is radiated. The Foscarini Lightweight is especially suitable for large rooms due to its diameter of 116 cm and its height of 73 cm. The cable is 330 cm long. On request, also a version with a longer cable is on offer.
