Description

The Byok Barrone is a modern futuristic floor lamp made of aluminium. The Barrone is available with the surface being either silver matt, black matt and white matt powdered. Eight efficient 6.2 watt LEDs are integrated.

Through head swiveling 180°, the total height will change - so the Barrone converts from standing floodlight to a reading light. In combination with almost any seating, the lamp head on the shoulder of the reader is radiant in a comfortable height and yet within easy reach.

Uplight and downlight are separately switchable and dimmable. With its reading lamps function, it is possible to provide for a disproportionately bright light. The head can be rotated continuously and swivel. The reading light is any situation and reading environment appropriately adjustable.
