### Description

The Foscarini Tress Sospensione Grande is the largest pendant lamp of this series. The light is emitted directly downwards as well as into the room. The lamp is characterized by a diameter of 48 cm and 41 cm height. For the light as light source one high voltage halogen fuel rod R7s max. 160 Watt and a length of 118 mm is used. Also an LED retrofit can be used.

Like all lamps of this Foscarini series, these lights are also made of lacquered fiberglass fabric and give the room an individual touch thanks to the interesting play of light and shadow. In the colours greige (gray-beige), white and black, the pendant light can also be combined well with each other. The cable length is 320 cm and can be shortened if necessary. Also longer cable is on offer on request.
