### Description

The Ingo Maurer Max Mover LED is a versatile wall light that can also be used as a ceiling light. It consists of aluminum, metal and fiberglass. The lamp is fastened with nylon ropes and is thus both adjustable in height as well as rotatable. As a ceiling light, the light can be swiveled horizontally by up to 180 degrees, as a wall light around 90 degrees. If the lamp is mounted on the ceiling, the cable can be shortened if necessary. The telescopic arm can be extended from 110 cm to 210 cm, which allows an individual lighting direction. On the handle, the reflector is swiveling in two directions. The Ingo Maurer Max Mover has a cable length of 400 cm. An on / off switch is located at the end of the light rod, the light is also dimmable on site.
