Description

The Ingo Maurer Schlitz Up is a ceiling light for installation in suspended ceilings. It is designed for seamless installation and requires a mounting depth of at least 15 cm. Therefore, a ceiling outlet is required for this lamp, which should be filled and painted over after the lamp has been installed. Ball-joint-adjustable Multi Mirror reflectors direct the light in different directions. The light is dimmable on site and is delivered with 3 GU10 LED spots. The LEDs are interchangeable. The ceiling lamp measures length x width = 93 x 47 cm. Special dimensions are also available on request.
