Description

The Nyta Tilt Wall without cable is mounted directly on the power outlet. Its lamp shade can be rotated by 360 degrees and tilted by 110 degrees at maximum so that the light can be readjusted again and again. The shade is made of matt lacquered aluminum and has a diameter of 18 cm. It is available in the surfaces black, white and grey. In all versions, the shade is attached to the wall bracket via a polished stainless steel tube. The wall bracket is always in the matching colour to the shade. The on/off switch is located at the top of the wall bracket. Halogen lamps or LED retrofit are suitable as light sources. In addition to this lamp, a wall lamp of the series with cable is also available.
