aptitude de tension	110 - 240 Volt
Projection en cm	42
matériel	cuivre, laiton
atténuation	gradateur cordon avec
Indice de rendu des couleurs	80
Flux lumineux en lm	420
La température de couleur en Kelvin	2.700 extra blanc chaud
Pied de lampe dimensions	longueur 10, largeur 10 cm
remplacement des ampoules :	chez le fabricant / a l'usine
Les performances du système	3 x 1 Watt
Dimensions	H 40 cm

Description

The Catellani & Smith Lola T is a table lamp with a flexible adjustable arm. The maximum projection is 42 cm. The light rod, the light arm as well as the light base are completely made of untreated brass, which can change in the course of time by an intended oxidation effect. The lamp head is made of copper and contains three integrated, replaceable LEDs. The light can be switched and dimmed via a dimmer on the cable. With a memory function, the last set brightness of the table lamp is automatically selected again the next time it is switched on.
